Dear Bill,

Now that the election returns are in, I can't tell you how disappointed I am for you, for us, and for the country that you will not be back in the Senate next January. I say that, of course, without passing any judgment on Representative Cohen whom I do not know, but because I do know what a contribution you have made. More than that, I know how helpful you have been to me both personally and officially. You have steered me out of a couple of holes that I was headed towards and I'll always be grateful for that.

I hope that we can keep in touch wherever you settle and whatever you do next. It would always be fun to have a chance to get together.

With every good wish.

Yours,

STANSFIELD TURNER
